

Mahak Mandlecha
UG IV Year
SGSITS, Indore
D.O.B.: 19 Nov 2000
Email ID: mahakmandlecha04@gmail.com

Enrollment No.: 0801CS181035
Department: Computer Science Engineering
Gender: Female
Specialization: None
Mobile: +91 7000869565

Degree / Certificate	University / Board	Institute / School	Year of Passing	Percentage
Graduation (B.Tech)	R.G.P.V., Bhopal	S.G.S.I.T.S., Indore	2022	87.9
12th	C.B.S.E., New Delhi	Jawahar Navodaya Vidhyalaya, Multhan	2017	93.2
10th	C.B.S.E., New Delhi	Jawahar Navodaya Vidhyalaya, Multhan	2015	95

Scholastic Achievements

- Recipient of Grace Hopper Celebration(GHC) scholarship by AnitaB.org. **Jun'2021**
- Recipient of WeTech Goldman Sachs Global Mentorship Program Award 2021. **Mar'2021**
- Under top 5 percentile out of 892 in DBMS course by IIT Kharagpur on NPTEL. **Mar'2021**
- Smart India Hackathon Finalist under the Department of Science and Technology(PR424). **Jan' 2020**
- Successfully completed Programming in Java course by IIT Kharagpur on NPTEL. **Dec' 2019**
- Received Scholarship under Mukhya Mantri Medhavi Yojana. **Jul' 2018**
- Selected as the only student to take part in the Regional Science Congress. **Nov' 2015**
- Received Letter of appreciation from MHRD Minister, India for scoring 10 CGPA. **Aug' 2015**

Work Experience

Technology Intern at DBOI Global Services Private Limited

May'2021-July'2021

- Developed the backend server with Spring Boot, involving different layers of the application including Model, Repository, Controller, Service.
- Involved in creating, designing the database, and connecting it with MySQL and Oracle SQL.
- Worked on enhancing the UI of the application using ReactJs which interacts with RESTful services at the backend.
- Developed JUnit test cases for testing the business services and carried out bug fixing by rigorous testing using JUnit and Mockito.

Front End Development Intern at Learn From Home

Apr'2020-May'2020

- Voluntarily helped a not-yet-funded start-up company to design and develop the frontend for its website from scratch.
- Used Bootstrap framework and Javascript to create responsive and dynamic web pages.
- Made the FAQ, contact us, connection, and help pages for the website.

Academic Projects

Plasma Donor Connector System

Mrs. Ritambhara Patidar, Computer Science Engineering Dept.

Apr'2021

S.G.S.I.T.S., Indore

- Built a user-friendly app that connects plasma donors and the person who is in need of that.
- Used Google Maps and News API to show nearby donors and the latest news related to Covid-19 respectively.
- All the available donors along with their phone number and blood group are shown in Google Maps as well as in the form of a list to search and contact donors easily and efficiently.
- Technology Used: Flutter, Firebase, Google Maps API, News API.

Technical Projects

WeCare: A Women Safety Application

May'2021

- It works in two modes: Emergency and Safe Mode. The emergency mode has features of sending a text with location to emergency contact, call emergency/women helpline, fake call, and play recorded call or siren. The safe mode has features of learning self-defense through embedded youtube videos, and safety tips.
- Technology Used: Flutter, Firebase, Google Maps API.

AgriSmart

May'2020-Aug'2020

- Project selected for Smart India Hackathon 2020 finals.
- Designed a platform where farmers and transporters can connect to each other. The main aim of this is to include Truck pooling, to reduce carbon emission, and also increase the daily wages of the transporter.
- Has features of offline mode, local notifications, truck booking.

Online Coding and Collaboration Platforms

Platform	Handle	Link
Github	mahakmandlecha	https://github.com/mahakmandlecha

LeetCode	mahak_19	https://leetcode.com/mahak_19/

Online PortFolio: <https://mahakmandlecha.github.io/My-Portfolio/>

Platforms Worked

- **Operating Systems** : Windows, Ubuntu
- **Programming Skills** : Java, C
- **Database** : MySQL
- **Web Development** : HTML5/CSS, JavaScript, ReactJs
- **App Development** : Flutter
- **Framework** : Spring Boot, Bootstrap

Courses Undertaken

- Analysis and Design of Algorithms
- Computer Architecture
- Database Management System
- Data Structures
- Design Thinking
- Discrete Structures
- Flutter Development Bootcamp[#]
- Programming in Java[#]
- Object-Oriented Programming
- Operating Systems
- Software Engineering
- Theory of Computation

- Courses Done Online

Positions of Responsibility

Beta Microsoft Learn Student Ambassadors

Aug'2020-Present

- Part of a global group of on-campus ambassadors who are eager to help fellow students, lead in their local tech community, and develop technical and career skills for the future.

Mentor at GirlScript Foundation

Jun'2020-Aug'2020

- Mentored 20 students in learning Java programming language.
- Responsible for guiding and providing a learning path to them. Scheduled weekly meeting for checking their progress.

Head of Design at Club CodeFoster

Jul'2019-Present

- Working with a team of 30 enthusiastic members.
- Responsible for organizing competitions, seminars, and workshops on various technologies to enrich the coding and development environment in the college.

Extracurricular Activities

HackDTU 4.0 Hackathon

Mar'2021

- Participated in a team of 2 members in a 24-hour national-level hackathon organized by DTU.
- Built an app aiming for women safely with on-tap protection.

Orientation

Aug'2019

- Organized an orientation session for first-year students to guide them about their academic and overall development.

Hammer throw

Dec'2016

- National level player in hammer throw (Athletics).

Youth parliament

Aug'2016

- Participated in a youth parliament organized by JNV Hoshangabad and acted as a finance minister.
